DISCO

The DISCO (Diagnostic Interview for Social and Communication Disorders) four-day accredited training course is for psychiatrists, paediatricians, psychologists, speech and language therapists and other professionals working in mental health and forensic areas of clinical practice. Applicants must have a minimum of three years' post qualification experience and a wide knowledge and experience of autism spectrum disorders (ASD).

It would be very helpful to have some more information about yourself, your experience and your role in the diagnostic process, in order to ensure that the training course is suitable for your needs.

Please complete the following information.

Completed application forms should be returned to conference@nas.org.uk
