Our findings

Impact of the Autism Act:

Unmet need:

- Over **two thirds** (71%) of autistic adults told us they weren't getting the support they need. That could mean as many as 327,000 autistic adults across England.

Meeting the Expectations of Autistic People and their Families

What's coming down the line?

How should / can localities respond?

A Good Life for Autistic People

Locality Commissioning for a Good Life

- When was the last **audit** of your current autism strategies / implementation plans?
- *Have you **mapped** current locality provision for autistic children, adults and families?*
- Do you have an effective locality Autism **Partnership Board**? Where does it report?
- *Is Autism on the **agenda** of your Senior Management Teams / Health and Wellbeing Board / STP / Integrated Care System?*
- Do they and your elected portfolio holder liaise with the statutory Autism Lead?
- *Do your **JSNA and Market Position Statements** have up to date autism specific sections?*
- Do you have the **mechanisms** in place to co-produce revised all ages autism strategies?
- *Is there effective **co-ordination** across Public Health, Children's, Adults and Corporate?*
- Will you need to plan for further increase in **demand** across operational pathways?
- *Meaningful **co-production** in all aspects of planning, commissioning, delivery and training?*
- Have you agreed **shared** responsibilities for autism in your locality?
- *Are you **investing** in strengths, low level prevention and self management?*
